Hot Water Kitchen Taps

Safe & Sustainable

BUY WITH CONFIDENCE

Calmag 3-1 Hot Water Taps

Discover our great range of instant 98°C filtered hot water taps, available in 2 styles and 3 popular colour finishes.

Reduced water waste

Instant 98°C hot water from your kitchen tap at the exact amount you need, saving you water & energy.

More time

Why wait for the kettle to boil when you can get 98°C water instantly. Get quick access to pure filtered hot water.

More space

Who doesn't love a clean and tidy kitchen. Remove the need for a kettle in your kitchen and make additional free space on your worktops.

Improved safety

Our safety spring button reduces the chance of children scalding themselves in the kitchen. Removing heavy kettles full of boiling water is also safer for elderly and less abled bodied people.

Healthier lifestyle

With filtered hot water on tap you can drink healthier water which will naturally benefit your health.

What about the running costs?

The world's environmental footprint has become ever more important. We are all acutely aware that we each need to reduce water consumption and waste - pouring stale old water from your kettle down the drain can stop. With a Calmag 3-1 Hot Water Tap - all this waste stops immediately - now that is something we must all take seriously!

We are INTU Your Safety

Our hot water taps are built with many safety features included to help keep you and your family safe in the kitchen. The spring latched boiling water tap handle makes it harder for children to use unaided, reducing the chance of scalding accidents.

Each product is also thoroughly tested and approved with the correct certifications required to ensure safety at home.

Tap Design Features

Simplicity is the best form of design - by stripping down to only essential elements we create a compact, efficient and top quality product for you. Providing you with quick, safe and reliable instant filtered boiling water with beautiful styles and finishes to match your home or work environment.

Calmag Hot water taps, tanks and filters are designed so they are easy to install and with low maintenance filters can be replaced quickly.

Colour finishes

Chrome Plated - CP

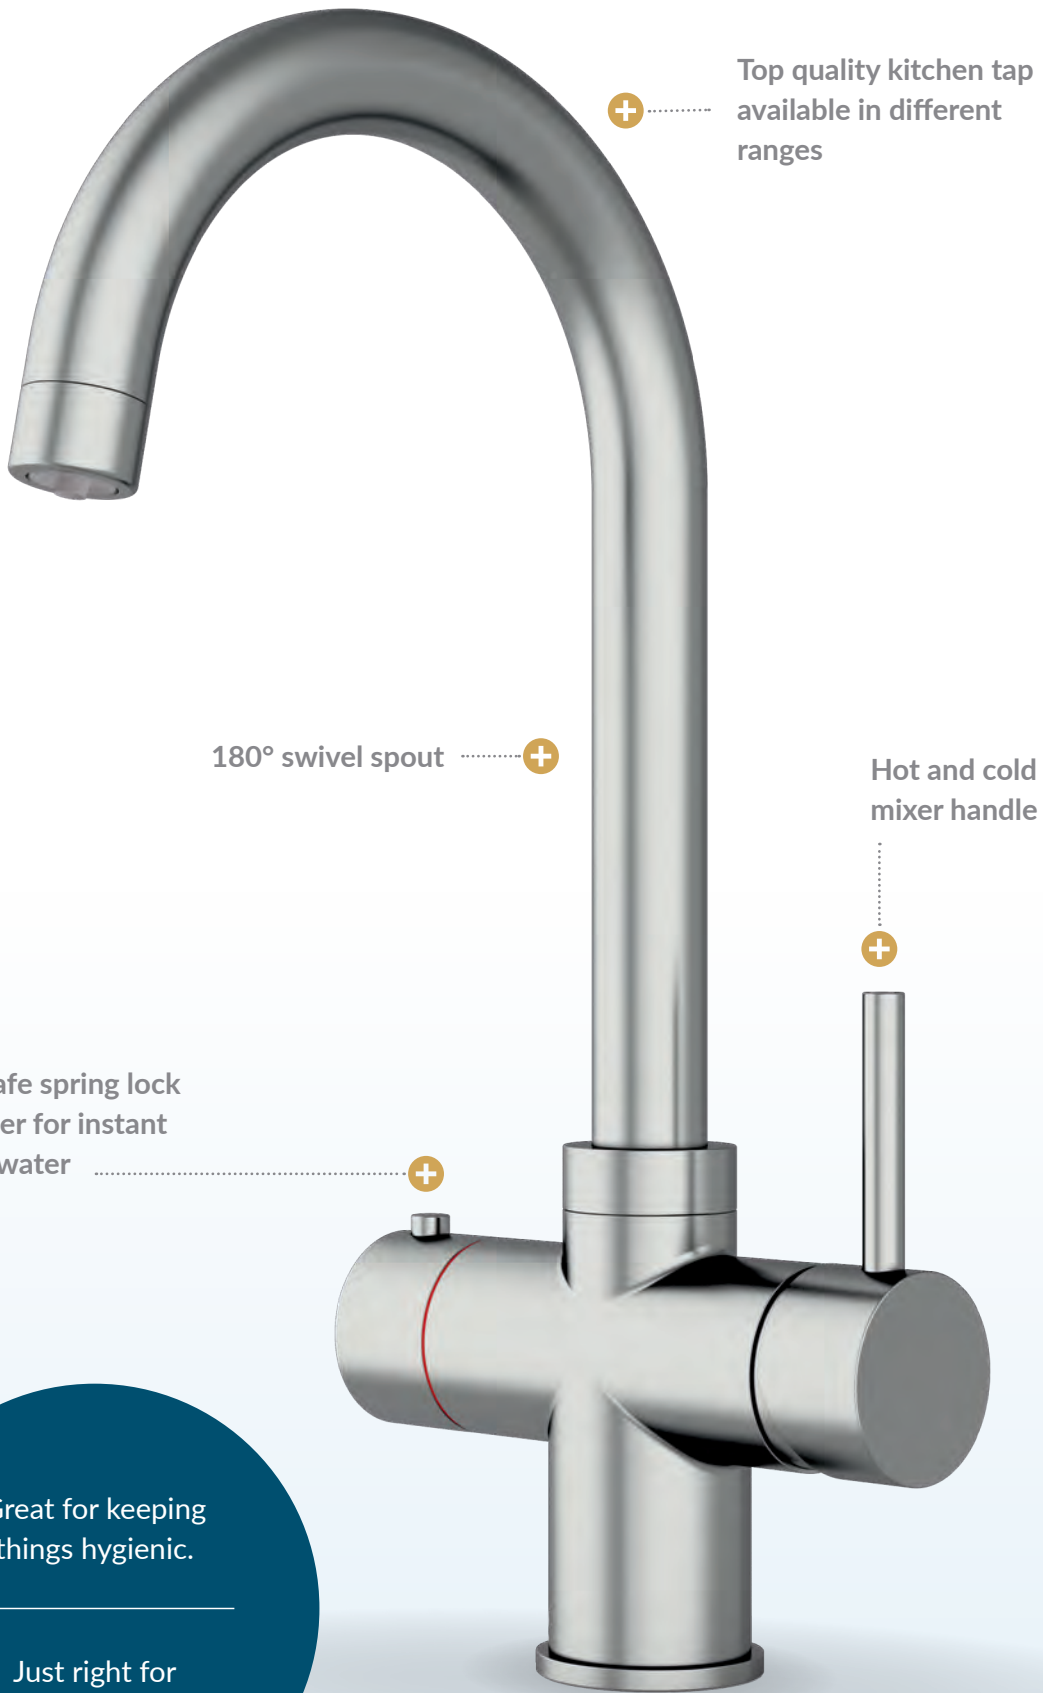

Brushed Nickel - BN

Matt Black - MB

i Each of the colours shown above are available in both Swan & Square tap styles

Top quality kitchen tap available in different ranges

180° swivel spout

Hot and cold mixer handle

Child-safe spring lock dispenser for instant boiling water

Guaranteed confidence in water quality

Calmag's **fresh, innovative approach** to water quality has led to the development of the most extensive and effective range of water treatment solutions within the UK water treatment industry - our products are designed with the **needs of our customers** in mind - the merchant, installer and consumer. Calmag's philosophy is based on providing products and services to meet the real needs of all our customers - we don't simply produce what we think you should buy - Calmag have the **unique design** and production capabilities to produce what you want - when you want it!

Beware of imitations!

There have been a number of instances when customers have been under the impression that they have bought a Calmag product but, in reality, have been supplied with an alternative and inferior product that fails to match the industry-leading performance and aesthetic appeal of ours. So we strongly advise customers to **ask for our product by name**. Other products may seem to offer similar qualities, but if it isn't Calmag, it simply won't perform to our standards.

There are **two key ways to check** that you've purchased a genuine Calmag product: they carry the **WRAS approval** on scale inhibitors, and **BuildCert** approvals on a range of chemical inhibitors through the **BEAMA** association.

Condensate Neutralisers

Water Softeners

Water Filtration

Powerflushing
